**Me** – I'm a '97 Spanish ELLIS PhD Student focused on my 1st year PhD with a strong interest in Algorithmic Fairness using Causality and Graph theory. **ELLIS** is an AI research network focused on excellence, with **35 units** in 15 countries of Europe (Oxford, Cambridge, EPFL, ETH, Max plank, Alicante...). ELLIS has **199 PhD students** around Europe with an acceptance rate of <5%, and all of them have joint supervision from 2 different countries.

**Research Topic** – My current thesis addresses the ethical implications of ML decisions, including concepts such as privacy, transparency, accountability, reliability, autonomy, and fairness, which urgently need to be taken into account in critical decision-making scenarios. In this thesis, (1) we study what data might be the cause of unfairness or what data should look like in a “fair” world (2) fairness in graph data to capture complex data relationships and human-generated data, and (3) go beyond observational data and study the long term effects and feedback loops of these proposed algorithms using causality. Specifically, we first study the influence of each data point in a fairness metric for reducing the bias in ML models using *Data Valuation*. Second, we study *Graph Rewiring* methods that ensure fair graph data, and finally, we use *Causality* to improve these methods going beyond observational data for developing fair robust models. In sum, **what data causes unfairness, what data should look in a fair world, and their societal effects.**

## EDUCATION

### PhD Student / Fairness in ML

Dec 2021 — Present

ELLIS Alicante – Institute of Humanity-centric AI (European Laboratory for Learning and Intelligent Systems)

- Researching on Fairness in ML decision making leveraging graph theory, game theory and causality.
- Supervised by **Dr. Nuria Oliver** (ELLIS), **Dr. Manuel Gómez Rodríguez** (MPI-SWS) and **Dr. Francisco Escolano** (UA)
- 6-months exchange at **Max Plank Institute for Software Systems (MPI-SWS)**, Kaiserslautern, 2023
- More info: [[European Lab. for Learning and Intelligent Systems - ELLIS](#)] [[Research Topic](#)]

### MSc in AI & Data Science

Jan 2020 — Jan 2021

Universitat Oberta de Catalunya

GPA:9.7/10

- Evaluated both Masters and Thesis with Honors
- **Thesis** supervised by **Dr. Baris Kanber** from University College of London: *Deep Convolutional Autoencoder for denoise T1 brain MRI*

### BSc in Computer Engineering

Sep 2015 — Jun 2019

University of Burgos

GPA:8.9/10

- Evaluated both Bachelors and Thesis with Honors
- **Extraordinary award**: best student in the promotion.
- **Thesis** carried out in **ADMIRABLE** research lab: *Use of biomarkers extracted from the voice for the detection of Parkinson*
- Press coverage: 1, 2, 3, 4, 5, 6, 7, 8.

## PROFESSIONAL EXPERIENCE

### Research Staff

Jan 2020 — Aug 2021

**ADMIRABLE** and **DATAHES** research labs

University of Burgos, Spain

- European project [2019-1-ES01-KA204-065615] Self-Regulated Learning: SmartArt.
- Behavioural VR data analysis and Platform **UBUMLaas**
- Academic production shown in *Publications* section (Topic: Network Science and Web mining)

### AI Consultant

Aug 2019 — Jan 2020

**Ernst & Young**

Madrid, Spain

- Building ML models for RPA integration: Intelligent Automation

### Research intern

Dec 2018 — Jun 2019

**ADMIRABLE** research lab

University of Burgos, Spain

- Research intern with collaboration scholarship. Research in the project *Use of biomarkers extracted from the voice for the detection of Parkinson* (BSc Thesis).

## HONORS & AWARDS

### Top 10% Reviewer ICML 2022 [Link]

Selected in the top 10% best reviewers in ICML 2022 Conference.

*International Conference on Machine Learning, July 2022*

### FPU PhD Fellowship (Declined) - FPU20/03687

Grants for pre-doctoral contracts in Spanish Universities.

*Spanish Government - Ministry of Universities, Sep 2021*

### Extraordinary Award of Bachelors in Computer Engineering

Best student the Degree in Computer Engineering of the University of Burgos, among all the students graduated in 18/19.

*Council of the University of Burgos, Dec 2019*

### Prototype Award [Press coverage: 1, 2, 3]

Project awarded: Use of bio-markers extracted from the voice for the detection of Parkinson.

*OTRI (Service for Technology Transfer University of Burgos), Feb 2019*

### Undergraduated Research Fellowship

Assistant research Fellowship in the Civil Engineering department of the University of Burgos, research group **ADMIRABLE**

*University of Burgos, Dec 2018*

### Courses with honors

8 out of 10 MSc courses evaluated with honours, included Thesis.

*Bachelor's and Master's*

10 BSc courses evaluated with honours, included Thesis.

## TALKS

**A Fairness perspective in algorithmic decision-making** [Link1, Link2] *University of Burgos (online), Mar 2022*  
**ELLIS + Qualcomm AI Research: Graph Neural Networks and Human-Centric Machine Learning** [Link] *Virtual, Feb 2022*  
- Moderator and Panel Participant  
- Panel: Pim de Haan, Carlos Castillo, Efstathios Gavves and Manuel Gómez Rodríguez  
**[ELLIS Talks] Fairness in Machine Learning: From introduction to current approaches** [Link] *University of Alicante, Jan 2022*  
**Data processing in Advance Learning Technology** [Link] *Self-Regulated Learning in SmartArt Learning conference, Jul 2021*

---

## SCIENTIFIC COMMUNITY SERVICES

### Reviewer

[External reviewer] Journal of Complexity 2022.  
[External reviewer] ICML 2022 - International Conference on Machine Learning - **Top 10% Outstanding Reviewer**  
[PC member] ECML-PKDD 2022 - European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (x4 papers)  
[External reviewer] The Web Conference 2022 (WWW'22), ACM, New York.  
[PC member] IEEE Transactions on Computational Social Systems 2022.

### Scientific organization

Head of organization of **ELLIS Doctoral Symposium 2022** *Alicante, Sep 2022*  
Head of organization of **ELLIS HCML Reading Group**: guest sessions and round tables *bi-weekly sessions*  
Moderator of **Qualcomm+ELLIS Reading Group Session about GNN+HCML** *Online, Feb 2022*  
Round table: Pim de Haan, Carlos Castillo, Efstathios Gavves and Manuel Gómez Rodríguez  
Volunteer at **NeurIPS Workshop "Human-Centered AI"** *Virtual, Dec 2021*

### Open Source software

Open source code from both **BSc** and **MSc** final projects  
Occasional collaborator in **Lightly AI PyTorch-based library** for Self-Supervised Learning. Main contributor of *Lightly version 1.1.2*  
More open source codes in GitHub: applications, experiments and data analysis

---

## ACTIVITIES

Final stage II Premios Semilla Empresarial (Business Seed Awards)[Project] *Mar 2017*  
3rd place in Innovation Contest Spin Up CyL by Junior Achievement Foundation Spain [Project] *Jan 2017*

---

## SKILLS

<b>Languages and libs</b>	Python, R, Tensorflow, PyTorch, PyGeometric
<b>More interests</b>	Mathematical optimization, Mathematical Modeling, GNN, Reinforcement Learning
<b>Communication</b>	Spanish (native), English (Fluent), German (A1)
